

EB-9

eyeheight

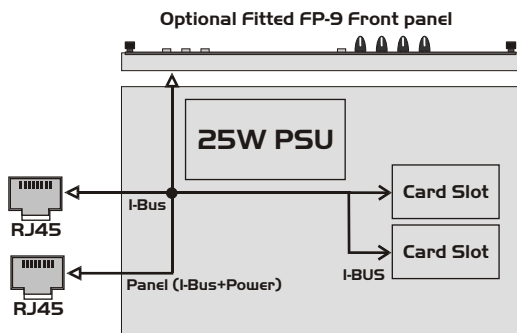

11/2012

IRU economy chassis with 2 slots.

### Overview

The EB-9 is a cut down version of eyeheight FB-9E chassis with economy in mind. The chassis has 2 available slots for up to 2 processing cards. The connectivity of the chassis is supplied by the I-Bus using standard CAT-5 ethernet cable and RJ45 connectors enabling remote panel operation. The unit is supplied with a single internal fixed 25Watt PSU.
